LIST OF THINGS TO BRING!

<1> Clear information (*in English, if possible*) about the main activities of your organisation, so that you can present it to other participants.

<2> Map, posters, postcards about your country/region/town to be introduced during intercultural evening.

<3> Some typical gastronomic specialities (*snacks and/or drinks*). Please contact other participants from your country to decide on what to bring. Make sure you just bring something to “appetite” the others, not to make them explode; think that others will do the same and it is always a pity to have food thrown away

<4> Comfortable clothes (*you can even bring your slippers!*), because we will do many active exercises.

<5> 1 Personal Computer per country group to use during activities.

Please fill to participate:

PROJECT DISCRPTION

Disasters in the realities of the world are a factor that affects nations and countries from all different perspectives. We come face to face with many different disasters at every point in the living space, and as a result, all societies are affected from psychological, social, economic and socio-cultural aspects. In addition to natural disasters faced by societies, it takes place in various human-made disasters. There are disasters caused by various human formations such as nuclear, biological, industrial accidents, immigrants and displaced people, wars. Disasters vary by country in terms of importance and diversity of natural disasters. World Meteorological Organization (WMO) Between 1970 and 2019, 50% of the disasters for which air, climate and water hazards were notified, 45% of the deaths that were notified, and 74% of all reported economic losses occurred as a result of the destructions caused by disasters. There are 1,672 disasters recorded in Europe in the distribution of regions. As a result of the disasters, a total of 159,438 deaths and US\$ 476.5 billion in economic damage were caused
